

Are Your Kids Really Safe on the Internet?

Are Your Kids Online all night?

Are Your Kids Viewing inappropriate web sites?

The facts are alarming, kids online chatting all night, bullied, harassed, viewing images and sites inappropriate for them and being contacted by strangers.

Unfortunately in today's world, it's not just a matter of trusting your kids to use the Internet responsibly and according to the rules you have set. It's a matter of whether or not you can trust the other millions of people on the Internet.

Cybersitter

- ▶ Allows YOU to set the rules and ensure they work.
- ▶ Easy to install. Allows you to set the content and or times that you allow internet usage.
- ▶ Works with Microsoft XP and Vista.
- ▶ Provides detailed logs of all Internet access, and much more.
- ▶ Installation and user assistance available, fees apply

CYBERSitter - CYBERSitter is the original Internet filter. It is the best choice for pre-teens and public/educational/institutional use, since 1995.

- Control Internet access by day and time, set time restrictions.
- Record and view all web sites visited.
- Record **MSN Messenger** and other chat room conversations.
- Blocking or limited access to popular but potentially inappropriate services such as **MySpace** and **Facebook**.
- Filters for selected categories update themselves automatically in the background.
- Have reports on usage sent to parents by email.
- Cannot be detected or disabled by unauthorised users.
- Parents can override blocked sites and add their own sites to block.

CYBERSitter is a five-time recipient of the prestigious PC Magazine editor's choice award.
